The University Student Senate (USS), Milano Dean’s Office and The Federation for Community Development Credit Unions (Federation) are hosting a teach-in to discuss responsible financial alternatives.

Special guests will include faculty from The New School, Cliff Rosenthal from Federation, and Dan Apfel from Responsible Endowments Coalition.

This program was developed by Milano alumna Elizabeth Friedrich in response to Occupy Wall Street and The New School students’ interest in understanding the origins of the financial crisis and how students may make better-informed financial decisions.
